BODY CARE

F I R M I N G T R E A T M E N T

The loss of firmness and turgor of the tissues is one of the consequences of the ageing process. The damage that is accumulated in the tissues causes a thinning of the skin and the appearance of flaccidity.

INDICATIONS OF THE TREATMENT:

Treatment indicated for cases of flaccidity and dehydrated skins.

FREQUENCY OF TREATMENT:

2 weekly treatments will be given.

STEP BY STEP

(Length of treatment: 1 hour)

- 1 Start the treatment exfoliating the skin with **Double Body Peel**. Spread the product over the skin and work it in with gentle movements. When its texture is denser remove the product with damp towels.
- 2 After exfoliation, with the skin clean and dry, give an invigorating massage with the **Firm & Sculpt Concentrate** in the area to be treated until it is completely absorbed.
- 3 Then apply **Snow Firming Mask** depositing a thick layer. Cover with film and leave exposed for 20 minutes.
- 4 Remove manually with mittens and finalise by applying **Premium Firming Cream** by means of a gentle massage until completely absorbed.

Follow-up at home:

Weekly treatment

Double Body Peel

Double exfoliating action: fossil granules and glycolic acid that eliminate the dead cells leaving the skin silky, smooth and uniform.

Perform the peeling twice a week. Apply the product onto the dry skin and massage gently. Then rinse with water.

Daily treatment

Premium Firming Cream

Body cream formulated with active agents that provide the epidermis with tonicity, firmness and elasticity.

Apply every night in the area to be firmed with a brief massage.
