

HYDRATING DETOXIFYING EXUDATION COLD PARAFFIN TREATMENT

The pace of modern-day life and an inadequate diet cause our bodies to build up toxins, which are the source of many problems. A general bloated feeling, dull skin and stomach complaints are some examples of the symptoms of a poor elimination of toxins.

This kind of treatment is an excellent conditioning for your skin. It helps your body to eliminate all accumulated toxins, purifying and truly renewing your body.

USE OF TREATMENT:

Suitable as an intensive moisturising treatment for all skin types, and as a detoxifying treatment for people with fluid retention or a build-up of toxins.

FREQUENCY OF TREATMENT:

Treat weekly until the problem has improved. If your aim is to improve the skin's appearance, a single treatment will suffice.

STEP BY STEP

(Length of treatment: 60 minutes)

- 1 Start with an exfoliation treatment using **Double Body Peel**.. Spread the product on the skin and moisten it with warm water to create a light foam that deeply cleanses the skin while eliminating dead cells.
- 2 After the exfoliation, remove the product using a wash mitt that has been moistened in warm water.
- 3 Spread a thick layer of **Exudation Cream +** over the clean dry skin. Cover all the body with plastic followed by the thermosudation blanket at its highest temperature, for 30 - 45 minutes. If the client has circulatory problems, the temperature of the blanket can be modified according to the clients' requirements.
- 4 Heavy perspiration is normal during exposure. After this time, remove the excess product by hand or have them take a shower.
- 5 To finish the treatment, massage with the **Premium Firming Cream** which, thanks to its rich composition, adds shine and moisture to the skin.

Follow-up at home:

Weekly treatment

Double Body Peel

Double exfoliating action: fossil granules and glycolic acid that eliminate the dead cells leaving the skin silky, smooth and uniform.

Perform the peeling twice a week. Apply the product onto the dry skin and massage gently. Then rinse with water.

Daily treatment

Premium Firming Cream

Body cream formulated with active agents that provide the epidermis with tonicity, firmness and elasticity.

Apply every night in the area to be firmed with a brief massage.
