

ABBOCATO KIANTY TREATMENT

Anti-ageing treatment

Treatment recommended for slowing down skin-ageing and for skin which is starting to show the first signs of firmness loss and cell regeneration. Greater resistance to skin ageing is achieved through the synergistic action of polyphenols and alginates.

USE OF TREATMENT:

Recommended for skin where cell regeneration is starting to slow down.

TREATMENT FREQUENCY:

Six sessions, once every fortnight. For maintenance, carry out the treatment once a year.

STEP BY STEP

(Duration of treatment: 50 minutes)

- 1 Remove all traces of make-up using **Nettare d'Uva** soft cleansing milk. This cleanser, which is rich in grape polyphenols, deeply cleanses the skin. Massage gently and remove using moist gloves.
- 2 Deep-cleanse the skin using **Rugiada di Vigna**.
- 3 Next, tone the skin using **Pioggia di Vigna** lotion.
- 4 Exfoliate gently with **Frappé di Vite**. Remove with a moist glove or sponge. When the skin is entirely free from impurities, carry out a short facial drainage.
- 5 This removes toxins from the skin, encouraging tissue oxygenation and eliminating stagnant fluids. It also helps absorption of the main active ingredients which are applied next. We are going to work on the client's face and neck, focusing on the main lymph node chains.
- 6 Apply **Lacrime d'Uva Concentrate** until it is fully absorbed.
- 7 Next, massage with **Vitalizing Massage Cream**. Once the massage is over, remove the excess of cream.
- 8 Then prepare the **Bacco e Venere** seaweed mask. Mix the contents of one sachet with a measure of water to form a smooth paste. Apply over face and neck, covering the client's eyes and mouth, to enhance the decongestant effect of the mask. After 15 minutes, remove in one piece.
- 9 Carefully apply **Eye Lift-ox** to the eye contour.

BRUNOVASSARI

Ongoing care at home:

Cleanse	Rugiada di Vigna Gentle cleansing foam made with grape extracts and trace elements. Cleans the skin without damaging it. Apply the product to moist skin and remove with plenty of water. Use: morning-night
Tone	Pioggia di Vigna Toner treatment lotion with grape extract and various seaweeds with antioxidant and stimulant effects. Using cotton wool, apply the product over face, neck and décolleté. This helps to remove the cleanser and clean away any product residue or natural oil from the skin. Use: morning-night
Day-time treatment	Pate d'Uva Non-greasy cream which helps cell renewal, hydration and firmness of skin. After cleansing skin, apply to face, neck and neckline.
Treatment for Eyes	Eye Lift-ox Light cream which activates microcirculation, with an anti-radical effect and which improves the appearance of dark circles under eyes. Gently apply to eye contour. Use: morning-night
Weekly treatment	Scrub & Mask Double action mask; peels and treats the skin in just one product. Due to the combination of Perlite peeling particles and white clay, the skin looks clean, matte and free of dead cells. This peeling can be used on a weekly basis to enhance the texture and appearance of the skin.
